The map displays the Factor de Desviación (DF) for various transport modes in Mexico City. The legend on the left lists the transport modes with their corresponding colors: Vialidades – periférico (grey), Cable-Bús (purple), Corredor Concesionado (brown), Tren InterUrbano (blue), Metro Bús (orange), Metro (red), Mexibús (yellow), Mexicable (light purple), PUMABUS (gold), RTP (grey-blue), and Tren Suburbano (dark blue). The legend on the right shows the DF ranges: 0.0 - 1.3 (green), 1.3 - 1.6 (yellow), 1.6 - 2.0 (orange), and 2.0 - 4.5 (red), along with a black dot for 'Puntos de Ruta'. The map itself shows the city area with different shades of green and yellow, indicating the DF values for each transport mode. Political boundaries (EDOMEX and CDMX) are also shown.

Transporte

- Vialidades – periférico
- Cable-Bús
- Corredor Concesionado
- Tren InterUrbano
- Metro Bús
- Metro
- Mexibús
- Mexicable
- PUMABUS
- RTP
- Tren Suburbano

Factor de Desviación (DF)

- DF = 0.0 - 1.3
- DF = 1.3 - 1.6
- DF = 1.6 - 2.0
- DF = 2.0 - 4.5
- Puntos de Ruta

Limites Politicos

- EDOMEX
- CDMX

1:400,000
